## LET THE GAMES BEGIN!

The cover photo was taken by Captain Mike Steadman, of **Morning Tauk Charters**, while going out to fish for the day on board the F/V MAIN SQUEEZE, which is owned and operated by Captain John Steadman from Montauk.

**Morning Tauk Fishing Charters** is owned and operated by Captain Mike Steadman out of Cape Ann Marina in Gloucester, MA. The boat F/V LINE CHANGES is a 28 ft. Carolina Classic equipped with the best fishing tackle, electronics, and safety gear.

Captain Mike has been fishing the waters off of Cape Ann for 20 years and has been very successful fishing for all the species that the Gulf of Maine and Massachusetts Bay have to offer.

He can be reached at <http://www.morningtaukcharters.com>.

- Re-Wrapping

**We now offer FREE shipping on all orders of \$150 or more, except for oversized items. See order form for details.**

To all of our friends and fellow fishermen,

The 2015 season is upon us. We hope that you have a great year and everyone catches the "BIG ONE." This is our 15th year producing this catalog and we look forward to many more in the years to come. We have continued to provide you with the best products at very competitive prices and will continue to do so in the future.

For the past 25 years Fisherman's Outfitter has served the needs of the inshore and offshore fishermen. We take great pride in the services, prompt delivery and products that we offer through this catalog, our website at [www.fishermansoutfitter.com](http://www.fishermansoutfitter.com) and in our retail store. Some of the new products for 2015 are the **Ocean Lure skirts in 50 colors and 3 different sizes**, **Fathom Offshore Tackle**, **Joe Shute Lures**, and **Cuda brand knives and tools**. Also this year we are continuing to sell the #1 best selling canyon spreader bar, the **Montauk Fishing Gear "Glo-get'em" spreader bar**. This bar was deadly for big eye and yellowfin tuna last year. These are great lures for trolling all pelagics. Our 2-piece custom harpoon was our #1 best selling product last year along with the Diamond Pink and Clear Fluoro Carbon.

Fisherman's Outfitter makes the finest custom rods that are far superior to any others on the market today. Once you fish with our custom rods you will never fish with anything else. Our **"WICKED"130BXRT 8' 7"** tuna rod was our #1 best selling rod for catching giant bluefin. It is made with a Calstar 130 RT Blank, Afico Bigfoot guides and Afico bent butt. We are also making this rod with Winthrop Excel guides. Please call the store for pricing on this model. Many of the Top Guns fishing for bluefin are using this rod. The Diamond Spectra and Hollow core line has continued to be our #1 Braided line. Using the Diamond needle kit, it is very easy to splice into the hollow core.

At Fisherman's Outfitter, we know the importance of finely tuned equipment and the difference it can make when fighting the fish. You need to feel confident that your rod and reel are in top-notch shape. We often see reels, supposedly freshly overhauled, that are not done to our standards. Our service department pays attention to even the smallest details. We take every reel apart, grease and thoroughly examine drag washers, bearings and all other important parts.

Fisherman's Outfitter offers the finest in reel service and repair. We are an authorized service dealer for Shimano, Accurate, Alutecnos, and Penn reels. We carry all replacement parts. Let us service your reels and experience the difference that our experts can make!

We thank you for all of your continued support, and remember that all of our products are available through this catalog, online at [www.fishermansoutfitter.com](http://www.fishermansoutfitter.com), and at our flagship location in Gloucester, Massachusetts. Go to our website at [www.fishermansoutfitter.com](http://www.fishermansoutfitter.com) to join our email list and receive special online promotions during the year.

If you are in the area, stop by and say hello!

John White, Owner ~ Joe Curcuru, Manager  
R.I.P. Izzy

## Five Convenient Ways To Order

international orders.**

# Elite Rods

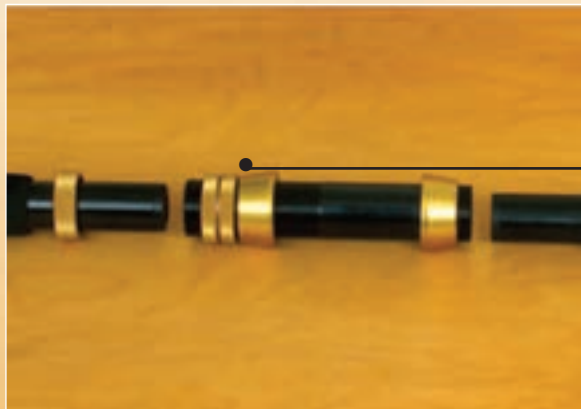

The Elite Custom Rod series by Fisherman's Outfitter is absolutely the finest series of custom rods available on the market today – nothing even comes close in quality and workmanship. Our custom black and gold diamond wraps, end, and center checks will put you a step above your competition.

The **FOCE80BS** and the **FOCE130BS** are made with Calstar E Glass trolling blanks, which are the finest E Glass blanks in the world. The guides are Aftco's finest Big Foot guides with gold-sealed, ball bearing rollers. The butts are black and gold **Stora butts**, to make rod storage easier.

The **FOCE50-130** is made from a Calstar Baja Boomer E Glass blank, made with the same cosmetics as above, with black guides and gold rollers and an Aftco unibutt.

The **FOCE30-80** is made with a custom Baja Baby Boomer E Glass blank. Cosmetics, guides and butt same as 50-130.

# RODS

Fisherman's Outfitter has been building big game rods for many years. Many of the top tournament captains and giant Bluefin tuna fishermen depend on our custom rods for superior quality, craftsmanship and performance. Fisherman's Outfitter's series of custom rods are built with black E-glass blanks, silver

AFTCO roller guides and Pac Bay aluminum butts. Our in-stock colors are burgundy under, black over with gold end and center checks; teal under, black over with gold end and center checks; and metallic blue under, black over with red end and center checks.

<b>GIANT TUNA KILLER SHORT STROKE ROD</b>				
<b>B</b>	FOSSS	Silver/Silver Bent Butt	80-130lb	\$479.00
	FOSSB	Black/Black Bent Butt	80-130lb	\$529.99

**STANDUP—THE ULTIMATE CHALLENGE FOR FIGHTING GIANT BLUEFIN TUNA!** Fighting tuna standup is "ultimate sport fishing." Rods like our new short stroke series are landing fish up to 1000 lbs! Be sure to check out these high-performance rods matched with selected Shimano Tiagra, Alutecnos, and Accurate reels on our "Combos" page.

**THE IGFA130BXRT-ROD** has a 130 Aftco bent butt section and tapers down to a #80 size 26 tip, and is made with a Calstar 130RT blank. With this softer tip you will put more pressure on the fish and pull less hooks when using live or dead bait. It is the rod of choice for most of the captains on the National Geographic show, *Wicked Tuna*.

**This rod is also available with a straight butt.**

Our live bait spinning rods are made with Calstar and Seeker blanks, along with Fuji guides and Fuji reel seats. The conventional live bait rods are made with the finest E-glass on the market today. The Cod and Grouper jigging rod is made with heavy duty E-glass that we think is the best rod for this type of fishing.

**TUNA SPINNING ROD**

**SPINNING REELS**

The 3 reels below are what we recommend for spinning reels to go along with our Tuna Spinning rod E. They stand up to the rigors of Tuna fishing very well. The drags hold up well. We have caught many fish on these reels and are very pleased with them.

A

This combo comes with the new Shimano Thunnus 12000C14 reel.

B

C

The ultimate tuna spin combo with a Calstar blank.

D, E

This tuna spin combo is a very powerful set up to catch large fish. Last year, 300-400 lb. fish were caught consistently with this combo. We use 65 lb. or 80 lb. Diamond Braid along with a mono Top Shot. A **Shimano Stella** 18000, 20000, or 30000 spinning reel is a very good choice to use with this specially designed rod.

The new **Shimano Stella** reels along with the 30-80 custom spinning rod is the Absolute finest for any big game fishing. Check out all the specs of these reels on page 16.

**W**ith Shimano's Long Cast Surf System – new Aero Technium, Ultegra C14+ and Ultegra XS-C spinning reels, matched on the new Tiralego rods – everything is 'within range' from any beach or jetty. The reels feature Shimano's Super Slow Oscillation and X-Ship, while the surf rods are built with C4s-HM construction and Fuji K Frame tangle free guides with 'Long Cast Concept' guide spacing for exceptional casting distance.

# SHIMANO Jigging RODS

Terez

The new Shimano Terez Rods are made to fish with braided line and are a very light weight and durable rod. These rods are built with The Shimano TC4 construction along with Fuji k series tangle free guides with alconite inserts to stand up to the rigors of braided line. We are offering 2 colors and 4 sizes for the casting series and 2 colors and 4 sizes for the spinning series. For other Terez sizes and colors, please go to our website at [www.fishermansoutfitter.com](http://www.fishermansoutfitter.com).

# SHIMANO Reels

Shimano strives for technological excellence and this manufacturer has been a cutting-edge leader in the big game arena. The Shimano name means "total efficiency," a concept that represents the ultimate response to the two main challenges of sport fishing: casting and retrieving. Shimano trolling and bait-casting reels are incomparable.

## SHIMANO®

### TLD GRAPHITE

Powerful, light and durable, the Lever-drag TLDIIA reel offers 2 speed versatility, salt-resistant A-RB and all of the performance you can handle. The feature highlights of these 2 speed reels are: the ergonomic power handle, (for the 20 and 30 only), and the offset ergonomic power grip for the 50, only — along with an aluminum spool, graphite frame and graphite side plates.

**TLDII50LRSA**

### TIAGRA 2-SPEED SERIES

The 2-speed Tiagra reels feature cold-forged aluminum spools as well as machined aluminum frames cut from solid aluminum pipe stock for incredibly strong, rigid frame with no flex. Fitted with 4-A-RB ball bearings, (6 in the 130 model), and treated with Shimano's Permalube, these bearings not

only last up to ten times

longer than standard

bearings, but also provide the

reel with unparalleled free spool

for quick drop backs and exceptional live bait

presentation. The side plate screws are chrome-

plated to resist corrosion in the harsh marine

environment that anglers often encounter. All

reels are equipped with offset ergonomic power

handle that allows for natural hand, arm, and

wrist movement. Constructed of Septon, the grip

material, is not only soft to the touch, but also

retains all gripping capabilities when wet.

### TALICA SERIES

The new Talica reel is a very powerful reel for its size. It is designed to be used with heavy Spectra Braid. This reel has a long range special style drag cam to provide maximum drag output.

### CALCUTTA SERIES

The Shimano Calcutta series includes the best bait-casting reels in the world. These reels feature a one-piece, forged aluminum frame, SUPER STOPPER, clicker and Shimano's variable brake system.

Shimano's Calcutta 400 and 700 reels are available with a levelwind to guide the line evenly on the spool. If you enjoy more casting and retrieving of artificial lures, the Calcutta levelwind model is your best choice.

**BEST SELLERS**

### TRINIDAD

The first time you catch a fish on the Trinidad, you'll be amazed at the combination of speed and power, and what that can mean in landing big fish. The new 6.2:1 speed, massive main gear and new power handle all work together to provide exceptional performance. If you want a reel with the power to grind on a tuna or get a big fish off the bottom, Trinidad is the right choice! The new Trinidad is lighter, smaller, and more compact. This is the best casting reel available.

## BAITRUNNER SERIES

The Shimano Baitrunner provides a secondary drag system that allows an angler to feed out line in tension-controlled freespool with the bale closed. This enables the angler to feed the line out, let the fish take the bait and run, while still maintaining line control with the bale closed. The Baitrunner gives you the ultimate fishing advantage, whether you're dropping bait back to fish from your boat or working jetties for strippers.

A

**NEW**

B

## THUNNUS CI4 BAITRUNNER

The new Thunnus CI4 Baitrunner is lightweight and has the power to stop big fish. This new reel is constructed with carbon materials that stand up to the high impact situations of all salt water fishing. They are up 7 oz. lighter than the older models without sacrificing any power in the reel. With the new drag system in the main drag and in the baitrunner drag the Thunnus CI4 is the most efficient spinning reel on the market today.

## STELLA

These new reels are the most powerful and toughest reels that Shimano has ever built. The braided line capacity and the unbelievable drag system makes these reels like no other on the market in today's fishing world. The smoothness of the Xtough Drag is designed to control the vigorous tuna and other large fish. You will never want or need another spinning reel after you fish with one of these. All other sizes and info can be found on our website at [www.fishermansoutfitter.com](http://www.fishermansoutfitter.com).

**NEW**

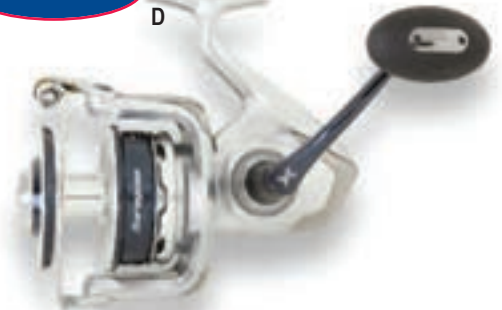

C

## SARAGOSA

The new and greatly improved Saragosa has everyone at Fisherman's Outfitter excited! This new reel, at a cost that is very affordable, is great for inshore and offshore fishing. With the rigid support drag system on the 20000 and the 25000, giving you 44 lbs. of drag, you will be able to handle a lot of big fish. The Saragosa features propulsion line management, paladin gearing, waterproof drag, and shielded A-RB bearings. This reel promises to be our best selling offshore and inshore reel.

## TORIUM 14

The new Shimano Torium 14 is a great reel for light bottom fishing – striped bass, kingfish, and small dorado. It's gear ratio of 6.2:1 – along with the manual clutch lever and anti-rust ball bearings, and counter balanced handle shank – makes this reel the best of light tackle reels.

## DIAMOND PRESENTATION FLUOROCARBON

We have done extensive testing along with Diamond Fishing Products over the last two years, and we're excited to be carrying the Diamond Presentation pink and clear fluorocarbon. Unlike other brands, this product is **TRUE 100%** fluorocarbon. It lays nice in the water and is very chafe resistant. We are sure that your hook up ratio will be greatly improved when using the Diamond Presentation fluorocarbon. The pink color was our #1 best selling fluorocarbon in 2014.

# DIAMOND BRAID

After working closely with the owners of Diamond Fishing Products for over three years, we feel that this is the #1 spectra braid and hollow core available.

## DIAMOND BRAID

Diamond Braid has taken over as the #1 braided line and hollow core at Fisherman's Outfitter. There is no question that Diamond Braid is so much better than any other on the market today. Customers are very pleased with the way that the smaller braid, when used on spinning reels and casting reels, has no "wind knots" when casting. The hollow core splices so much easier than all of the other lines available. We feel so confident in this product that we took out the other spectra braids that we were carrying. They do not stand up to the task and quality of Diamond Braid.

**DIAMOND HI-CATCH**

Diamond Hi-Catch Line is the ONLY choice for extreme conditions. With superior abrasion resistance and exceptional tensile and knot strength, it clearly outperforms the competition. Our experience shows 130-lb Diamond Line breaks at 244 lbs, and 200-lb line breaks consistently at 300 lbs! This year we've added hi visibility yellow to the clear and blue lines, in a full range of weights and lengths.

## MOMOI

Momoi's Hi-Catch monofilament is, without any doubt, the #1 line in the world. Momoi consistently tests above its published data. This manufacturer was the first to introduce low-visibility fluoro carbon lines. With its fast sink rates, refractive index close to water, and abrasion resistance, this product has become the #1 fluoro carbon used by top bluefin tuna fishermen in the country.

**BEST SELLER!**

**MOMOI HI-CATCH WIND ON LEADERS**

The big advantage with these leaders is there's no need to use a swivel, plus the leader can be as long as you want. Guaranteed not to pull apart under any circumstances, these leaders let you bring the fish under control without the help of a wireman.

**PLEASE SPECIFY WHAT HOOK YOU WANT WHEN ORDERING THESE LEADERS**

**GAMAKATSU 12/0 LIVE BAIT HOOK**  
Shown here at actual size.  
See page 31 for all Gamakatsu hooks.

**OWNER 11/0 SUPER MUTU HOOK**  
Shown here at actual size.  
See page 34 for all Owner hooks.

**MOMOI HI CATCH**  
2 lb. spools come in smoke blue, clear, and hi-vis yellow. Momoi IGFA comes in hi-vis yellow and light blue. Please specify color when ordering.

**CUSTOM FLUOROCARBON LEADERS**

Our fluorocarbon leaders are 10 feet long and made with 300 lb. bullet swivels with either Gamakatsu Live Bait hooks, or Owner Super Mutu hooks. We take great care in crimping these leaders to make sure that you land what you hook. A lot of customers ask for these leaders because they don't like to crimp the sleeves. We take the guess work out of it. We can make any special size leader that you'd like. Just ask!

**FREE SHIPPING on all orders over \$150 - except for oversized items**

# TERMINAL TACKLE

**T**erminal tackle is one of the most important components of your fishing gear. Choosing the correct sleeves for the appropriate line is key to your success. \* Be sure to use Momoi Sleeves with Momoi Line.

Fisherman's Outfitter carries a full supply of sleeves for Momoi High Catch Mono and Diamond Line. It is very important that you use the correct size sleeve with the mono you are using. If you have any questions, please ask us and we'll make sure you get the correct size sleeves.

Sleeves are made from a special aluminum alloy that is easy to crimp and resists electro-corrosion in saltwater. The soft metal and oval shape work together to provide a permanent crimp without compromising line strength.

Loop protectors are highly flexible, vinyl-coated springs that slide over monofilament line to provide superior abrasion protection. Loop protectors slide smoothly and may be cut to shorter lengths as desired to create any loop size.

## AMERICAN FISHING WIRE

This good-quality stainless steel wire, with tobacco-colored finish, is used primarily with mackerel hook baits and daisy chains.

## AMERICAN FISHING WIRE

This 49-strand wire is ideal for making mousetraps and shark leaders.

## DACRON

Fisherman's Outfitter dacron is high bulk and the most abrasion-resistant dacron on the market. The high bulk allows for easy splicing of mono to dacron using the Chinese finger method. The high vis color has become popular over the past couple of years because it is easy to see and follow both in and out of the water.

# LINE AND LEADER

Every successful offshore fisherman knows that it's important to use high-quality mono and wire so you don't lose your fish. These lines, along with Fisherman's Outfitter's own custom dacron, are the best in the world.

## OFFSET CIRCLE HOOKS

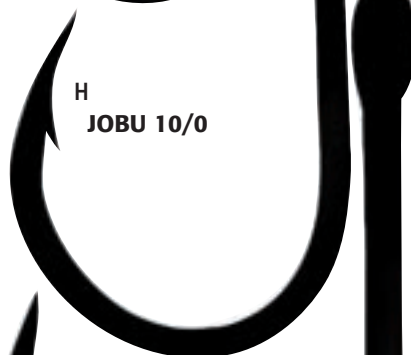

feature an extra-strong shank for rigging large live baits and big chunk baits. Now available in a ringed model, the super-strong, welded ring in the eye of each hook reduces stress on the hook. Not only are the chances of the hook pulling out much less but, once hooked up, the pivoting of the hook on the ring tends to wear less of a hole in an active fish's mouth. Jobu Big Game Hooks are the perfect hook for trolling and chunking. Built to tackle the biggest, meanest fish in the ocean, they are ideal for custom rigging large baits and spreader bars.

# Mustad

BEST SELLING HOOK ON THE PLANET

The world's largest manufacturers of hooks for the past 100 years, these hooks are formed from strong, high-carbon steel, then specially tempered to bend without breaking...to endure when all others fail! The Reversed Curve offers superior hookset when chunking for tuna, while the Needle Eye is the ideal hook to use with wire when rigging for ballyhoo, mackerel or herring.

### MONTAUK FISHING GEAR FEATHERS

These new feathers are made by Montauk Fishing Gear and are new to our product line. They can be rigged as a single lure, daisy chain, or spreader bar. "E" makes a great spreader bar for yellowfin, big eye, and bluefin tuna. Go to pages 54-55 for spreader bars made with these feathers. Any lure on this page can be rigged. Just ask when ordering.

### MONTAUK LONG ISLANDERS

The new MTK LONG ISLANDER is a great lure to use with or without a ballyhoo. They can also be used with our Chewey Hoos on page 57.

# SLUGGO BARS

Sluggo spreader bars have become very popular trolling for tuna. The bar creates great action in the water and work so well because of the amount of sand eels that are in the upper part of the water column. We can rig these any way that you want. The Fisherman's Outfitter single Sluggo Bar is the same as "A", only with a bird at the top.

KEY ITEM	DESCRIPTION	PRICE
<b>SLUGGO BARS</b>

# TITANIUM BIRD & Spreader Bars

## MOST POPULAR SPREADER

### ALL OF THESE SPREADER BARS

were used extensively in 2014 by Fisherman's Outfitter and selected captains on the east coast. These spreader bars prove to be very effective trolling at speeds 6-8 knots. The two chewy-hoo spreader bars (A & B) have been working great, especially where bally-hoo or half beaks are found. These bars are great for big eye, yellow fin, blue fin tuna, dorado, sailfish and marlin.

#### ILAND LURE CHEWY-HOO

These new lures come custom rigged and ready to go – and take the place of fresh bally-hoo. These lures were used last year by our charter boat, The Yankee, and were very productive. These lures work best when adding a few squirts of Tuna EX, found on page 35.

# FISHERMAN'S OUTFITTER Custom Lures

**T**hese Fisherman's Outfitter Custom Wahoo Lures (A-F) come in 10 oz. and 20 oz., and are rigged with double quick rig hooks. These lures are also good when trolling for mako or thresher sharks. Capt. Don Tewksbury along with F.O. owner John White used these lures extensively in the Bahamas and off the coast of south Florida, and found these to be the most productive of all wahoo lures.

# CUSTOM LURES

These ILAND custom lures are vibrant in color and have well-balanced heads. They are the number one lure to use with ballyhoo, strip baits, or rigged with just hooks.

## ILANDER

## ILAND EXPRESS

Hand-made in North Carolina by Joe Shute, these lures are the #1 lure to be used for all tunas, marlin, wahoo, and all other big game fish. These are great to use with or without ballyhoo and strip baits.

# PLAY ACTION PRODUCTS

PlayAction makes the best teasers available today, bar none! Careful attention to appearance, action, durability and attractiveness to the fish all impact design and manufacturing of these products. At 20", the Big Kahuna is the "grand master" teaser for all big game fish, producing a rattle loud enough to draw fish from extreme depths. Bowling Pins are designed to move erratically side-to-side at a depth of 1 to 3' below the surface, while the Flock of Birds flutter on the surface like fleeing bait fish.

Pink/White

Silver/Blue/Pink

Purple/Silver/Black

Black/Green

The Shimano Orca lures are designed for long, powerful casts. The internal weight position produces erratic popping and diving action. These lures are great for blues, bass, tuna, mahi, and all other pelagics.

M, N, and O are great bags from Shimano, with plenty of room to store lures, line, and terminal tackle.

# ROD HOLDERS & OUTRIGGERS

**S**tainless steel products by LD Marine are the finest in the world for big game fishing. The swivel-based rod holders are the strongest on the market. The standard length is 13" in 15 degree or 90 degree, but we can customize anything you need for your boat. Fisherman's Outfitter also carries a side-

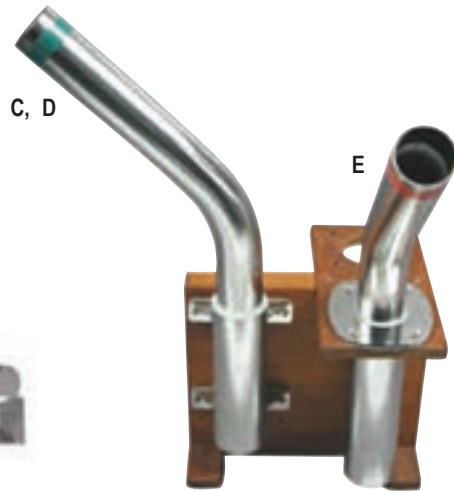

mount rod holder to accommodate boats that do not have wide gunwales or transoms.

LD Marine built an outrigger system second to none in hookup ratios. They feature 19' and 15' heavy-duty black poles, along with stainless steel side, gunwale and roof mount systems.

**A, B**  
**LDCR13 CENTER RIGGER**  
This 13' pole has a single stainless steel center mount.

### FOHH HEAD HOOK

This hook is made from 5/8" 316 polished stainless steel round stock. 14" long with a 6" throat opening, this hook is used for lifting or handling tuna or shark by the head.

### FOBH BOX HOOK

These box hooks are from 3/8" 316 stainless steel stock and are 24" long. Used for pulling fish boxes or handling fish.

### FOBT BLOCK & TACKLE

Our custom block and tackle equipment is used in conjunction with the head hook. It's made of stainless steel with 3 over 2 heavy-duty delran sheaves. The safe working load is 2200 pounds.

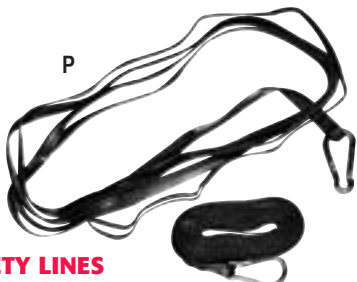

### FOARS ANCHOR RETRIEVAL SYSTEM

The custom system consists of a stainless steel safety snap attached to a 50" float and includes a stainless steel anchor ring. It makes anchor hauling a snap.

### OFSL 10' SAFETY LINES

### FOTR TAIL ROPE

Our custom tail rope is made with heavy-duty, rubber-coated, 3/16" stainless steel cable with a 12' spliced nylon line. The tail rope holds its shape well and sinks quickly. Don't forget it's not over until your fish is wrapped up.

### NEW

### C

### 10 FT. 2-PIECE HARPOON

We are now offering our own custom 10 ft. 2-piece harpoon. This harpoon is made with the same components as our single piece harpoon. We think that you will be very happy with this new product and price! This also comes with a FREE 2-piece bag.

D, E, O

### A, B

### FOCH6-8 HARPOON ONLY

Fisherman's Outfitter harpoons are made with 1-3/4" schedule 40 black anodized aluminum pipe. They come in two lengths - 6 and 8 feet. The complete harpoon setup includes a basket, 200 feet of line, an A-1 poly ball, steel shank, and a dart.

Announcing the next advance in braided line technology...

# Diamond Braid

Diamond Braid joins the best monofilaments in the world including, MOMOI HI-CATCH, DIAMOND, ILLUSION and XHARD. Our braid incorporates the latest braiding techniques that result in improved strength at diameter, 3% stretch and bonded color-fastness that prevents flaking or fading. This process produces a rounder line that ensures greater reel capacity, decreased twists, distance casting and longer fishing life. Our perfect roundness prevents line from "knifing" through spools and significantly improves knotting performance. By the way, this braid is a hollow core from 80lb. through 200lb – perfect for splicing.
