To all of our friends and fellow fishermen,

Volume 26 of the Fisherman's Outfitter Catalog celebrates over a quarter century of providing you with the highest quality products at competitive prices. For the past 37 years, Fisherman's Outfitter has grown to be a trusted name worldwide for all of your fishing tackle needs. Our friendly and knowledgeable customer service is second to none. We invite you to experience the Fisherman's Outfitter difference; whether you shop with us over the phone, online or at our Flagship retail store in historic Gloucester, Massachusetts.

#### **New for 2026**

Located on page 21, Okuma has expanded their line of premium reels with their all new, Tesoro LDJ. A mid-speed, lever drag jigging reel that excels at both vertical and slow-pitch jigging. Every detail of the Tesoro LDJ is optimized for maximum saltwater performance. With 46 pounds of max drag and its massive long throw power handle, these reels are worth taking a look at. Tesoro LDJ reels are backed by a 3-year limited warranty.

#### **Also New for 2026**

**Fisherman's Outfitter Directional Spreader Bars.** We are very excited to announce that all of our spreader bars are now available in a Directional, Port or Starboard configuration. It took several seasons of extensive testing with different birds - and we now have proven a fish catching winner! Utilizing Tormentor's 9" Bird with a fixed, Lexan rudder, we are confident these bars will help you catch more fish. Directional Spreader Bars have become quite the staple in the offshore trolling game, especially helping boats without outriggers become more successful. Finding a bird that can pull our largest spreader bars off to the side was the biggest challenge. All of our spreader bars are built with Titanium bars and rigged to withstand big fish. Call or visit our website for pricing and more info.

#### **Fisherman's Outfitter Custom Gear**

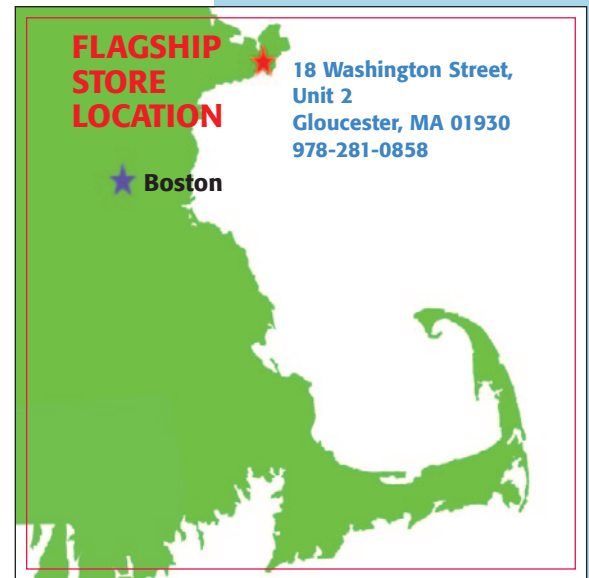

Fisherman's Outfitter offers an extensive selection of Custom Fishing Gear. Our Custom Fishing Rods are built by hand, in the United States, just for you. All Fisherman's Outfitter Custom Rods are built to last, many passed on from one generation to the next, they are sure to be the envy of your dock mates! Fisherman's Outfitter also offers the largest selection of custom Spreader Bars, Daisy Chains, Single Lures and more. All custom gear is assembled by us, in our shop and can be altered to fit your needs, just ask! All lures in this catalog can be custom rigged to your specifications.

#### **Fisherman's Outfitter Service Department**

At Fisherman's Outfitter, we know the importance of finely tuned equipment and the difference that can make when fighting potential world record-class fish. Confidence is paramount when big game fishing and you can be sure when your gear is serviced by Fisherman's Outfitter, it will be in top-notch shape. Fisherman's Outfitter is renowned for Rod and Reel repair and general maintenance. Top professionals around the globe choose Fisherman's Outfitter because failure is not an option! We work on Shimano, Accurate, Alutecnos, Okuma and Penn Reels, with most common replacement parts in stock. If you have any questions about our service, give us a call or send an email, we will answer you.

If you find yourself in the area, be sure to stop in to say hello!

# Elite Rods

The Elite Custom Rod series by Fisherman's Outfitter is absolutely the finest series of custom rods available on the market today – nothing even comes close in quality and workmanship. Our custom black and gold diamond wraps, end, and center checks will put you a step above your competition.

The **FOCE80BS** and the **FOCE130BS** are made with Calstar E Glass trolling blanks, which are the finest E Glass blanks in the world. The guides are Aftco's finest Big Foot guides with gold-sealed, ball bearing rollers. The butts are black and gold **Stora butts**, to make rod storage easier.

The **FOCE50-130** is made from a Calstar Baja Boomer E Glass blank, made with the same cosmetics as above, with black guides and gold rollers and an Aftco unibutt.

The **FOCE30-80** is made with a custom Baja Baby Boomer E Glass blank. Cosmetics, guides and butt same as 50-130.

The conventional live bait rods are made with the finest E-glass on the market today. The Cod and Grouper jigging rod is made with heavy duty E-glass that we think is the best rod for this type of fishing.**

### 70XH TUNA SPIN ROD

This rod is made with oversized fuji guides with alconite rings and a heavy duty DPSH Fuji reel seat. This is a great spinning rod for small to medium tuna and all other species that need a powerful rod to put them in the boat.

### SPINNING REELS

The 3 reels below match very well with our custom spinning rods. With many sizes to choose from, we can help build your new favorite setup! View in detail on pages 18 and 19.

# SHIMANO Reels

Shimano strives for technological excellence and this manufacturer has been a cutting-edge leader in the big game arena. The Shimano name means "total efficiency," a concept that represents the ultimate response to the two main challenges of sport fishing: casting and retrieving. Shimano trolling and bait-casting reels are incomparable.

## SHIMANO®

### TLD GRAPHITE

Powerful, light and durable, the Lever-drug TLDIIA reel offers 2 speed versatility, salt-resistant A-RB and all of the performance you can handle. The feature highlights of these 2 speed reels are: the ergonomic power handle, (for the 20 and 30 only), and the offset ergonomic power grip for the 50, only – along with an aluminum spool, graphite frame and graphite side plates.

TLDII50LRSA

### TIAGRA 2-SPEED SERIES

The 2-speed Tiagra reels feature cold-forged aluminum spools as well as machined aluminum frames cut from solid aluminum pipe stock for incredibly strong, rigid frame with no flex. Fitted with 4-A-RB ball bearings, (6 in the 130 model), and treated with Shimano's Permalube, these bearings not only last up to ten times longer than standard bearings, but also provide the reel with unparalleled free spool for quick drop backs and exceptional live bait presentation. The side plate screws are chrome-plated to resist corrosion in the harsh marine environment that anglers often encounter. All reels are equipped with offset ergonomic power handle that allows for natural hand, arm, and wrist movement. Constructed of Septon, the grip material, is not only soft to the touch, but also retains all gripping capabilities when wet.

### TALICA A SERIES 2-SPEED REELS

Shimano's redesign of their flagship Talica A sets the industry benchmark again for 2-speed lever drag reels. Shimano's innovative Infinity Drive technology allows for increased drag force, while reducing side-load pressure, resulting in a 40% lighter rotation during tough battles with high-drag settings. Talica A now features X-Protect technology to boast high-level water resistance in vital areas to improve durability without sacrificing a light gear feel.

### TRINIDAD

The first time you catch a fish on the Trinidad, you'll be amazed at the combination of speed and power, and what that can mean in landing big fish. The new 6.2:1 speed, massive main gear and new power handle all work together to provide exceptional performance. If you want a reel with the power to grind on a tuna or get a big fish off the bottom, Trinidad is the right choice! The new Trinidad is lighter, smaller, and more compact. This is the best casting reel available.

### SPEEDMASTER II SERIES 2-SPEED REELS

The extremely durable and high-performance SpeedMaster II boasts a high maximum drag power combined with a smooth, ultra-wide range of drag adjustability to make it a true fish-fighting machine. Constructed with a rigid HAGANE Body to prevent the misalignment of moving parts under the heaviest loads. Performance at a price hard to beat!

### BAITRUNNER SERIES

The Shimano Baitrunner provides a secondary drag system that allows an angler to feed out line in tension-controlled freespool with the bale closed. This enables the angler to feed the line out, let the fish take the bait and run, while still maintaining line control with the bale closed. The Baitrunner gives you the ultimate fishing advantage, whether you're dropping bait back to fish from your boat or working jetties for stripers.

### STELLA SW SERIES

The new Stella SW from Shimano has once again raised the bar. Featuring a full metal HAGANE Body and cold-forged HAGANE Gears for longevity and ultimate smoothness. Coupled with Shimano's Infinity Drive Technology + SilentDrive, winding torque has been increased by up to 30%. Shimano's new Heatsink Drag System reduces spool temperatures by up to 100 degrees! X-Protect and X-Shield further protect

### THUNNUS CI4 BAITRUNNER

The new Thunnus CI4 Baitrunner is lightweight and has the power to stop big fish. This new reel is constructed with carbon materials that stand up to the high impact situations of all salt water fishing. They are up 7 oz. lighter than the older models without sacrificing any power in the reel. With the new drag system in the main drag and in the baitrunner drag the Thunnus CI4 is the most efficient spinning reel on the market today.

### DIAMOND PRESENTATION GEN 2 FLUOROCARBON

Diamond Presentation Gen II Fluorocarbon has all the benefits of the original Presentation recipe. High abrasion resistance and lower stretch for the toughest conditions. One of the preferred and trusted leader materials for targeting species of all sizes, from inshore waters to the great blue and beyond.

### DIAMOND BRAID GENERATION 3-8X SOLID

Diamond Braid Generation 3 Solid 8X is an eight-carrier solid braided line that has a silk-like finish and far superior to others on the market. New to the line-up is **Diamond Yard Line**, a multi-colored braided line that changes colors every 20 feet (5 colors) for precise depth acquisition. Perfect for trolling and jigging where precise depth is a must.

# DIAMOND BRAID Hollow Core Gen. 3

## DIAMOND BRAID HOLLOW CORE GEN. 3

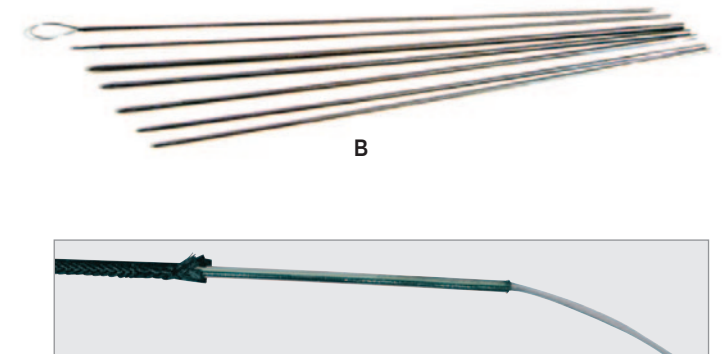

This new hollow core product is #1 in quality, strength, and is the easiest to splice compared to any other hollow core product. No other hollow core product comes close to the quality and price of the Generation 3 Hollow Core.

**MOMOI HI-CATCH NYLON MONOFILAMENT**

Momoi Hi-Catch Monofilament Line is an extremely high quality monofilament produced using strict quality controls. It exhibits very low memory characteristics and is very soft and flexible while maintaining a high tensile strength to diameter ratio. Smaller diameter lines with high tensile strength result in larger reel capacity, more abrasion resistance and superior knot strength.

**MOMOI HI-CATCH - IGFA SERIES MONOFILAMENT**

If you fishing in an IGFA regulated tournament or after a line class world record, then Momoi IGFA series monofilament should be your line choice. Manufactured under the strictest tolerances, guaranteed to break just under the rated test to ensure IGFA compliance. Available in Hi-Vis Yellow or Light Blue.

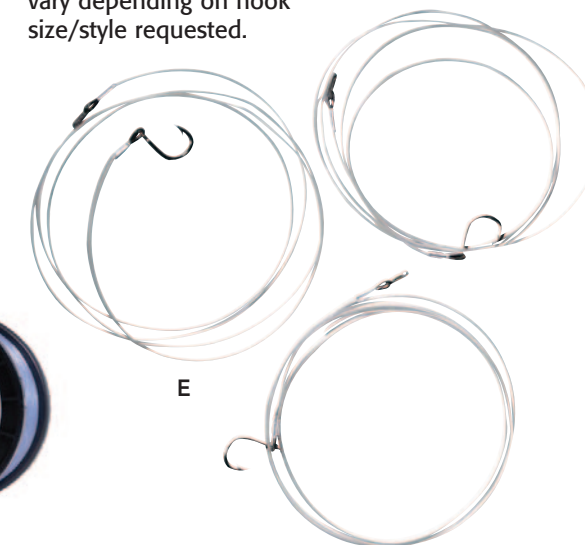

**MOMOI HI-CATCH MONOFILAMENT**

1lb and 2lb spools of Momoi Hi-Catch are available in Clear, Smoke blue or Hi-Vis Yellow. Please specify your preference when ordering.

**FO CUSTOM FLUOROCARBON LEADERS**

Our Custom Fluorocarbon Leaders are made in our shop using only the highest quality fluorocarbon and terminal tackle. Spro Power swivels, Gamakatsu HD Live Bait or Owner Super Mutu hooks come standard. We take the guesswork out of selecting the correct swivel and hook size for you, but ultimately these are custom made for you and you can select how they are made. Pricing can vary depending on hook size/style requested.

# TERMINAL TACKLE

Terminal tackle is one of the most important components of your fishing gear. Choosing the correct sleeves for the appropriate line is key to your success.

\* Be sure to use Momoi Sleeves with Momoi Line.

**NEW SHORT G & F SLEEVES**

A

Fisherman's Outfitter carries a full supply of sleeves for Momoi High Catch Mono and Diamond Line. It is very important that you use the correct size sleeve with the mono you are using. If you have any questions, please ask us and we'll make sure you get the correct size sleeves.

Sleeves are made from a special aluminum alloy that is easy to crimp and resists electro-corrosion in saltwater. The soft metal and oval shape work together to provide a permanent crimp without compromising line strength.

Loop protectors are highly flexible, vinyl-coated springs that slide over monofilament line to provide superior abrasion protection. Loop protectors slide smoothly and may be cut to shorter lengths as desired to create any loop size.

## DACRON

Fisherman's Outfitter dacron is high bulk and the most abrasion-resistant dacron on the market. The high bulk allows for easy splicing of mono to dacron using the Chinese finger method. The high vis color has become popular over the past couple of years because it is easy to see and follow both in and out of the water.

# MUSTAD HOOKS

**THE MUSTAD DEMON PERFECT OFFSET CIRCLE HOOKS** are very popular with tuna fishermen for chunking and fishing with live bait. The micro-sharp, chemically sharpened points result in better hook-up ratios and the 4X strength ensures they stay put. 8/0 and 9/0 are the most popular for targeting Giant Bluefin tuna. Specify Size when ordering.

# NOMAD LURES NEW

**N**omad MADMACS are a super high speed, sinking trolling lure that wahoo and tuna simply can't resist. Capable of being trolled at speeds from 5-20 knots with the 8" size and 5-15 knots for the 10" size. MADMACS have an amazing vibrating action, even at low

speeds due to their Patented Autotune system, which allows them to always troll straight, run perfectly and with an amazing action – no matter the speed. The ability to troll at most speeds makes the Nomad MADMACS a must have lure in every spread.

# SLUGGO BARS

Sluggo spreader bars have become very popular trolling for tuna. The bar creates great action in the water and work so well because of the amount of sand eels that are in the upper part of the water column. We can rig these any way that you want. The Fisherman's Outfitter single Sluggo Bar is the same as "A", only with a bird at the top.

# TORMENTER SIDEWINDER DIRECTIONAL BARS

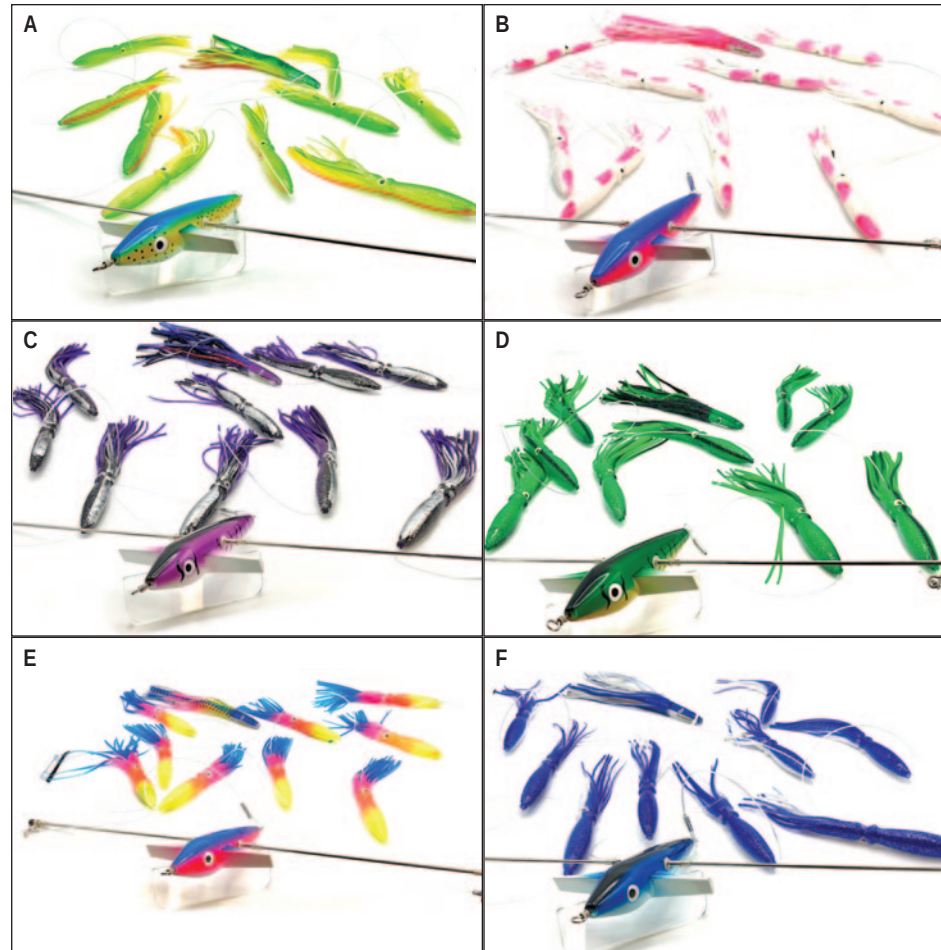

NEW

These 19" wide spreader bars come with a 7" Center Bird with a durable, fixed 5mm Lexan Directional Fin. These unique spreader bars are designed to pull themselves away from the side of your boat (either port or starboard), eliminating the need for outriggers or freeing them up for more baits in your spread. Side-Running spreader bars have become quite the rage over the past few seasons and Tormenter's Sidwinder has become a favorite among east coast and west coast fishermen. Tormenter Sidwinder spreader bars are uniquely rigged to "self-right" themselves in rough water. These bars feature 9 x 9" squid teasers and detachable fully rigged double skirted stingers. **COMES WITH FREE LURE BAG!**

This spreader bar can be trolled from 8-10 knots. This bar produces yellow fin and blue fin on a consistent basis. This Green Machine bar can also be made with rainbow machines and black diamond machines, which are letters J and K.

**ALL OF THESE SPREADER BARS** were used extensively by Fisherman's Outfitter and selected captains on the east coast for many years. These spreader bars prove to be very effective trolling at speeds 6-8 knots. The two chewy-hoo spreader bars (A & B) have been working great, especially where bally-hoo or half beaks are found. These bars are great for big eye, yellow fin, blue fin tuna, dorado, sailfish and marlin.

**FOCH6-8 HARPOON ONLY**  
Our custom harpoons are constructed out of 1-1/4" schedule 40 aluminum pipe, black anodized for corrosion resistance. Heavy-Duty with no flex for that perfect throw. Our harpoons are fully customizable and can be made in any length - we can ship up to 8 feet. Our complete setups come with everything you need to stick that fish of a lifetime.

**FOBH BOX HOOK**  
These box hooks are from 3/8" 316 stainless steel stock and are 24" long. Used for pulling fish boxes or handling fish.

**FOBT BLOCK & TACKLE**  
Our custom block and tackle equipment is used in conjunction with the head hook. It's made of stainless steel with 3 over 3 heavy-duty delran sheaves with 70 feet of rope. The safe working load is 2200 pounds.

**NEW**  
**8 FT. & 10 FT. 2-PIECE HARPOON**  
We are now offering our own custom 8 ft. and 10 ft. 2-piece harpoon. This harpoon is made with the same components as our single piece harpoon. We think that you will be very happy with this new product and price! This also comes with a FREE 2-piece bag.

**FOARS ANCHOR RETRIEVAL SYSTEM**  
The custom system consists of a stainless steel safety snap attached to a 50" float and includes a stainless steel anchor ring. It makes anchor hauling a snap.

**OFSL 10' SAFETY LINES**

**FOTR TAIL ROPE**  
Our custom Tail Rope is two parts; heavy-duty rubber coated, 3/16" stainless steel cable + 15 feet of 1/2" nylon rope. The cable end will hold its shape, and sink if necessary, making it easier to lasso the tail of your catch.
